Modern Hydraulics/Nevada LLC

New in 2010 was our revolutionary expandable modular main unit and gauge panel design for Unified™ Jacking Systems

A machine that can be expanded as your business grows!

A major innovation: Remote Jacking Control

One person can operate a Unified™ Jacking machine from up to 200 feet away via this rugged, bright touch screen

Hydraulic pressures and main unit location are displayed on the screen

Instructions for every operation and situation appear on the screen

Can be retro-fitted to existing machines

Improve your productivity with our new technology

Introducing our new 20 ton crib jack

20 ton capacity at 6000 PSI, 17" stroke
Spring return and double-acting models available

Price: \$1995

Same quality as our famous "Black Jack"

20 ton jack cylinder will not fit 15 ton crib jack bases

True innovation only from *Modern Hydraulics!*
